

REMARKS

The examiner's restriction has been addressed in the Amendment to the Claims by canceling Claims 7 and 8.

The examiner's objection to the disclosure has been addressed in the Amendments to the Specification.

New Claims 15-26 are directed to features not disclosed in the prior art.

Applicant notes that Monnet discloses a device where an interior wall is a filter (Col. 2 11. 40, 41, 44, 51) allowing the transfer of fluids, including air or water, and a device void of water during certain portions of operation. (see Monnet, Fig. 2a and 2f)

The allowance of Claims 15-26 is accordingly solicited.

Respectfully Submitted,
